# EB-L25000U

# Versatile, powerful and durable installation projector, and at 25,000 lumens, the brightest 3LCD laser projector on the market 1.

At 25,000lm, Epson has developed the brightest ever 3LCD laser projector<sup>1</sup>. Based on 3LCD technology combined with 4K enhancement and a 4K-compatible lens, the EB-L25000U offers both outstanding definition and flexibility. Combined with a sealed optical unit, these features make it ideal for smoky environments such as live events.

The EB-L25000U is not only Epson's brightest ever projector, it's also the brightest 3LCD laser projector on the market<sup>1</sup>, offering vivid colours and excellent contrast, even in well-lit environments.

#### Smaller and lighter

The projector is also smaller and lighter than competing products<sup>2</sup> in the installation marketplace, making it easier to transport and install, and able to fit into smaller spaces.

## Project from any angle

Thanks to a newly optimised cooling system, the versatile EB-L25000U can be rotated through 360° and offers freely adjustable tilt, meaning it can be mounted at any angle and project images in portrait or any other orientation.

#### 4K Enhancement technology

The EB-L25000U offers Epson's 4K Enhancement technology, which shifts pixels 0.5mm diagonally to double resolution, as well as a wide range of 4K-capable lens options, resulting in crisp, high-definition images even when projecting at a distance.

#### 20,000 hours maintenance-free use

A sealed optical unit and inorganic phosphor wheel mean that the EB-L25000U provides 20,000 hours of reliable, maintenance-free use<sup>3</sup>, even coping with very smoky environments such as concert halls and theatres. These are twinned with a pipe frame and baseplate structure to ensure a durable, knock-resistant casing.

#### DATASHEET / BROCHURE

## **KEY FEATURES**

- Our brightest ever projector At 25,000lm, the brightest 3LCD laser projector on the market
- Durable reliability Sealed optical unit to protect against dust and smoke
- Inorganic phosphor wheel Inorganic panels and inorganic phosphor wheel for longer life
- 4K enhancement technology Epson's 4K Enhancement technology means crisp, high-definition images
- Smaller and lighter Lighter and more compact than similar products, for ease of use

**EXCEED YOUR VISION** 

# PRODUCT SPECIFICATIONS

TECHNOLOGY		
Projection System	3LCD Technology, RGB liquid crystal shutter	
LCD Panel	1.43 inch with C2 Fine	
IMAGE		
Colour Light Output	25,000 lumen- 17,500 lumen (economy) in accordance with IDMS15.4	
White Light Output	25,000 lumen - 17,500 lumen (economy) in accordance with ISO 21118:2012	
Portrait Colour Light Output		
Portrait White Light Output	25,000 lm	
Resolution	WUXGA, 1920 x 1200, 16:10	
High Definition	4K enhancement	
Aspect Ratio	16:10	
Contrast Ratio	2,500,000 : 1	
Native Contrast	4,000 : 1	
Light source	Laser	
Laser Light source	20,000 Hours Durability High, 30,000 Hours Durability Eco	
Keystone Correction	Manual vertical: ± 45 °, Manual horizontal ± 30 °	
Colour Processing	10 Bits	
Colour Reproduction	upto 1.07 billion colours	
OPTICAL		
Zoom	Motorized	
Lens	Optical	
Lens Shift	Motorized - Vertical ± 65 %, horizontal ± 30 %	
Lens position memory	10 positions	
Image Size	100 inches - 1,000 inches	
Focus	Motorized	
CONNECTIVITY Interfaces	USB 1.1 Type A, USB 2.0 Type B (Service Only), Ethernet interface (100 Base-TX / 10 Base-T), Wireless LAN IEEE 802.11b/g/n (WiFi 4) (optional), VGA in, VGA out, DVI in, BNC in, HDBaseT,
